

ISSUP Newsletter: Issue 43

At the end of November the ISSUP team gathered in England for an incredibly productive staff meeting. As well as discussing the upcoming [NACADA, ISSUP and African Union Conference & Workshop](#), which will take place in **Nairobi next week**, we spent our days together planning for the future of ISSUP. Click on the news story below to learn about ISSUP's future developments.

In this week's newsletter you can access the **presentations from keynote speakers** of the [Ninth EUSPR Conference and Members' Meeting](#). The event took place October 24th – 26th 2018 in Lisbon, Portugal with a focus on **Prevention Technologies – Improving the Use of Evidence in Prevention Practice**.

This edition also features the recently published **Report on Drug Use in the Americas 2019** by the [Inter-American Drug Abuse Control Commission \(CICAD\)](#). The report analyses current **drug use data in the Western Hemisphere**. It features information on the most widely used **drugs across the region, organised by drug and by population group**, and highlights emerging issues of interest to policy makers and the public.

We look forward to seeing everyone in Nairobi!
