ISSUP Newsletter - Issue 59

We are excited to announce that UNODC will deliver a new networks series called '[Prevention Science and Practice](#)'. Each week, UNODC will **introduce, analyse and offer guidance on different strategies that have been found to be effective in preventing drug use, substance abuse, as well as many other risky behaviours**. The series will be broadcast through the [ISSUP Prevention Network](#) and the basis for the series will be the programmes and policies described in the [International Standards on Drug Use Prevention – Second Updated Edition](#).

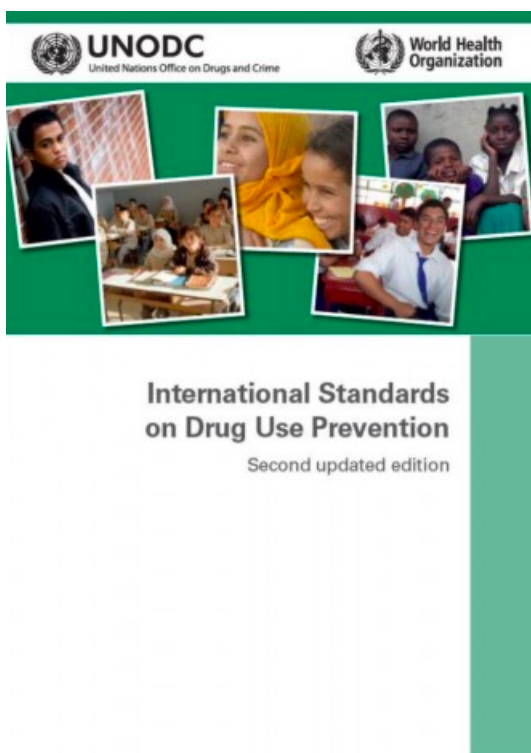

There is a **growing collection of networks** on the [ISSUP website](#) that **cover a range of topics within the drug demand reduction field**. Members can join, contribute content, and connect with others working in the field through the different online groups. **Find out more about the networks [here](#)!**

For all of those who attended our conference in Vienna in July, you are now able to download your attendance certificate from your ISSUP dashboard! [Click here to login](#).
