

Welcome to ISSUP's August newsletter!

The first half of the year has introduced unprecedented global challenges. Faced with significant obstacles, practitioners have had to react, adapt and be creative to preserve the services they offer. Staying connected has been fundamental as people have turned to their virtual networks where face to face contact has not been possible. We and our National Chapters have been working tirelessly to ensure **virtual events, training sessions and resources are available to support professionals with their vital practice.**

Below, we have highlighted a selection of events, news and Knowledge Share articles from the past month. **As always, you can find further resources and information on our [website](#).**

Updates/

National Chapters News
