ISSUP Newsletter - Issue 111: October 20, 2021

[View this email in your browser](#)

Welcome to this edition. With October in full swing we are delighted to bring you news of the appointment of seven ISSUP members to a newly established **National Chapters Advisory Committee**. There is still time to submit proposals and abstracts to present at the **ISSUP 2022 Annual Conference** in Abu Dhabi. Finally, don't miss **INL Webinar Week** on 25 - 29 October. Details of all this and more can be found below.

---

## National Chapter Advisory Committee Established

At the end of September ISSUP organised its first National Chapters Advisory Committee Meeting.

This newly formed Committee plays an important role in the development and expansion of National Chapters in the different regions where ISSUP undertakes its work on helping drug demand professionals gain access to knowledge and evidence-based practices through ISSUP membership.

The Advisory Committee will serve as an avenue for addressing issues or challenges which face National Chapters within ISSUP including research collaboration, partnerships development, training, and more.

It is hoped that the Committee will be able to come together and focus on these issues and make recommendations to consider when making decisions on the development and future of ISSUP in relation to National Chapters. Read our full announcement: [ISSUP](#)

ABCD is the largest long-term study of brain development and child health in the United States.

Using cutting-edge technology, scientists will determine how childhood experiences (such as sports, videogames, social media, unhealthy sleep patterns, and smoking) interact with each other and with a child's changing biology to affect brain development and social, behavioral, academic, health, and other outcomes.
