

ISSUP Newsletter - Issue 139: December 21, 2022

[View this email in your browser](#)**Happy holidays!**

The year is drawing to a close and we want to send a big thank you to all of our members, international partners and friends for the support you have given us in 2022. Without your support none of the work we do to encourage the transfer of knowledge and best practices in prevention, treatment and recovery support would be possible.

Thousands of you attended this year's online and in-person events and we are particularly grateful to our members and partners who contributed to the Abu Dhabi Conference and Workshops that took place in May.

You've made this year the most successful on record for our website and we are thrilled to see strong demand for training and professional development opportunities from across the workforce. Interest in Universal Treatment Curriculum (UTC) Self-Led Courses has been one of this year's success stories and we thank everyone who has enrolled on them and shared the opportunities with others.

we are grateful to our online community for helping us reach even more people with our mission and values.

A special thank you goes to colleagues and National Chapters who have helped us develop, deliver and extend work on the Introduction to Evidence-Based Prevention (INEP Plus) training modules. We look forward to bringing our members more updates on INEP Plus in the New Year.

## A big thank you to our National Chapters

It has been a wonderful year for ISSUP National Chapters. Your dedication and enthusiasm to driving forward ISSUP's mission is amazing and we have achieved so much because of your hard work. The range of activities conducted this year was impressive and truly international in scope.

2022 produced many memorable moments and it was wonderful to be able to gather in-person in Abu Dhabi. It has been a great year and we are thankful for your tremendous support and commitment.

We wish you and your loved ones happy, peaceful holidays and every success in 2023.
