ICEBERG THEORY OF NARCOTICS CRIME

Problems

Events
What Just Happen ?

Solutions

Reactive

Patterns and Trends

What has been happening ?
Has it occurred before ?

Responsive

Systemic Structures

What force procedure
These patterns ?

Creative

Mental Models

What in our thinking allows
this situation to persist ?
(Fundamental problem or
the root of the problem ?)

Generative/Leverage/
Fundamental Solutions

Problems

Drugs crimes occur when there are:

- Desire to act
- Ability to act
- Opportunities to act
- Suitable targets

Location :

- Drugs Suppliers
- Drugs Users
- Area Vulnerability

People :

- Intention to Use
- Opportunity to Use

Goods :

- Availability of Drugs
- Availability of Other Addictive Substances

Activities :

- Numerous Entertainment Venues
- Lack of Supervision
- Inadequate Physical and Non-Physical Infrastructure

Weaknesses:

- Weak System
- Poor Supervision
- Mental and Moral Issues
- Internal and Social Problems
- Lack of Self-Control
- Cultural Factors
- Drug-Prone Areas
- Inadequate Education
- Economic Disparities

Repressive Action ▪ Deputy of Eradication ▪ Deputy of Rehabilitation
Preventive Action ▪ Deputy of Community Empowerment
Preemptive Action ▪ Deputy of Prevention

Human Resources Development Center

Global and Regional Drug Trends

Increasing
methamphetamine
production in the
Golden Triangle.

Rising use of
synthetic drugs and
NPS.

Online platforms &
cryptocurrencies are
enabling dark drug
markets.

High-risk smuggling via
air, sea, and land borders.

Indonesia's Drug Situation (Snapshot)

THE PREVALENCE OF DRUG ABUSE

Prevalence Rate Drug Abuse Per Province in 2019

1.80 %

Prevalence Rate Drug Abuse Year 2023

1.73 %

- In general, there has been a decrease in prevalence rates (past-year use and lifetime use) in both rural and urban areas, with the largest decline observed in rural areas.
- In urban areas, the past-year use prevalence **decreased by 0.13 points**, and lifetime use **decreased by 0.24 points**. In rural areas, the past-year use prevalence dropped by 0.41 points, and lifetime use **decreased by 0.64 points**.
- The prevalence rates for past-year and lifetime use in urban areas in 2023 declined compared to 2021; however, these figures remain higher than those recorded in 2019.

THE DRUG-PRONE AREAS MAP

DRUG SMUGGLING PRONE ROUTES

Drug smuggled into Indonesia passes through sea routes and land borders between countries.

VISION OF RPJMN 2025–2029

*"Together with Advanced Indonesia
Towards a Golden Indonesia 2045"*

Isu/Tantangan & Peluang

- Angka prevalensi penyalahgunaan narkoba tahun 2023 sebesar 1,73% atau sekitar 3,33 juta jiwa, angka relapse mencapai lebih dari 70%, ditambah dengan munculnya banyak NPS serta motif baru peredaran gelap narkoba di Indonesia.

Sasaran Utama

Terwujudnya masyarakat yang bebas dari penyalahgunaan narkoba

Target:

Angka
Prevalensi
Penyalahguna
Narkotika

(2025)

1,6
(2029)

Highlight Intervensi

- Memperkuat Deteksi dan Pencegahan Tindak Pidana Penyelundupan Narkoba

Instansi pelaksana: Badan Narkotika Nasional

Indikasi lokasi: Pusat

Sumber dana: APBN

8 MISSIONS (ASTA CITA)

1. Strengthening the ideology of Pancasila, democracy, and Human Rights (HAM).
2. Strengthen the country's security defense system and encourage national independence through self-sufficiency in food, energy, water, creative, green, and blue economies.
3. Increase quality employment, encourage entrepreneurship, develop creative industries, and continue infrastructure development.
4. Strengthening the development of human resources (HR), science, technology, education, health, sports achievements, gender equality, and strengthening the role of women, youth, and persons with disabilities.
5. Continuing downstream and industrialization to increase added value in the country;
6. Building from the village and the bottom for economic equity and poverty eradication;
7. Strengthening political, legal, and bureaucratic reforms, and **Strengthening the Prevention and Eradication of Corruption and Drugs;**
8. Strengthening the harmony of life with the environment, nature, and culture and increasing tolerance between religious communities to achieve a just and prosperous society.

DRUG PREVENTION AND ERADICATION

Measures to prevent and eradicate drug trafficking and use must be carried out in a targeted and comprehensive manner starting from awareness in the family.

THE HEAD OF BNN RI

BNN Policy Direction for 2026

1. Expansion of Prevention Programs
2. Expansion of Community Empowerment Programs
3. Expansion of the Rehabilitation Program
4. Expansion of Eradication Programs
5. Human Resource Development & Digitalization

BNN-CPDAP

COOPERATION ON SUPPLY REDUCTION

Strengthening the border

Border management describes the strategies, policies, programs, and tools used by the governments and international bodies to regulate and monitor the movement of people, goods, and vehicles across borders. It's often a balancing act between national security, humanitarian responsibility, and economic efficiency.

BNN collaborates with UNODC organize the Consultation Meeting and Drugs Awareness Raising Program and Children's drawing competition in border areas as an effort to strengthen the border to support the P4GN program.

UNODC

United Nations Office on Drugs and Crime

BORDER POSTS:

- **ARUK**

COLLABORATION BETWEEN BNN - DEA

CAPACITY BUILDING

- Narcotics Investigation Course
- Narcotics Analyst Workshop
- Drug Unit Commander Course

CASE DISCLOSURE

SEA DRAGON TARAWA

Suspect:

6 Male
(2 Thai + 4 Indonesian)

Evidence:

2,115,130 Grams
of Crystal Meth

Modus Operandi:

Hidden Compartment in the fuel tank

Crime Scene:

Karimun, Kepulauan Riau Province

Date of Arrest:

May, 21 2025

The Way Forward ▸

1. Advance early warning and surveillance systems for new drug trends.
2. Mainstream alternative development in drug-prone communities.
3. Foster evidence-based policy-making through research and data.
4. Build regional task forces for border and maritime control.
5. Ensure inclusive drug policies that balance enforcement and human rights.

Indonesia's Commitment

Uphold the three pillars: prevention, enforcement, and rehabilitation.

Actively engage in regional and multilateral dialogues.

Support capacity building for frontline officers.

Lead initiatives on youth prevention, rehabilitation models, and drug-free communities.

“Indonesia stands ready to work with all partners to build a safer, healthier, and drug-free region.”

Together, We Can Make a Difference.

Thank you.
