Global Youth Survey

Young people should shape the future of the field.

- Developed by young people
- Informed by youth networks
- By youth, for youth
- Your voice. Your experience. Your priorities.

Focus: substance use & crime vulnerability

We Want To Hear From You.

- Needs & challenges
- Strengths & priorities
- Leadership & participation
- Training & professional development
- Wellbeing
- Issues affecting young people in your country/region

Your Voice Can Shape What Comes Next

This is more than a survey.

- Inform future youth initiatives & opportunities
- Strengthen meaningful youth participation
- Present youth perspectives at the CND in Vienna
- Contribute to a publication in Addictology

"If we want opportunities and initiatives that truly respond to young people, young people need to be part of shaping them."

I participated in developing this survey.

Now I'm asking you to be part of the next step.

TAKE IT. SHARE IT. LET YOUR VOICE BE HEARD.
